

San Marcos Montessori School

“Education for Life”

May 2016

Charming Montessori school located in a thriving university town in vibrant central Texas.

San Marcos Montessori School has provided early childhood education to families since 1984.

Purchased in 2000 by the current AMI trained guide/owner, the school thrives as the educational choice for families with children ages 3 to 7. Licensed for 34 students in a lovely older converted home, it's just south of downtown San Marcos by the historic district. The school has full enrollment year after year, with many enrollees being siblings or friends of former students.

Beginning date is flexible for the new owner to start. This opportunity is perfect for an individual seeking satisfaction in serving the educational needs to an appreciative community. The need for expansion into Toddler and/or Elementary programs exists and is available for the person with that vision.

The building, Montessori apparatus, a jewel of a prepared environment and goodwill of the community are offered for sale. Please contact Binka Spaulding at (512) 353-8340 or binka.spaulding@sanmarcosmontessori.com for more information about this profitable and rewarding opportunity.
