

Ivory Montessori School (IMS) is a new establishment that opened its door in September 2016 in Abidjan, Ivory Coast.

Ivory Coast is a beautiful country full of life and opportunities. Not Only we have beautiful tropical weather, we also have the beach 20 min away from the city.

IMS expended in 2017 by opening three classes (two toddler classes and one primary class). In 2018 we will open a new primary classroom, it's an opportunity for a directress/director to create and organize a new classroom. Children come from all over the world and speak many different languages, like all children they are eager to learn! We follow authentic Montessori education.

We are seeking one **AMI trained directress/director** to run one either a primary or toddler classroom either French or English speaking.

(we offer expats advantages)

Please send us your Resume and motivation letter if interested to:
