

What is the AMI Inclusive Education Course?

Silvia C. Dubovoy, Ph.D.

Why this Course Was Created

- About 1 in 6 children in the United States had a developmental disability
- We want to look for strengths and consider **inclusivity** based on differences (neurological and physical), not disorders.

Goals

- To use all means of Montessori education to support the **personality of all children** so they can fulfill their potentialities to their maximum and have happy, satisfied and productive lives.

- **To make exceptional children capable of *crossing the dividing line*** so that they can enter into society as individuals, independent of care from other people and capable of supporting themselves through meaningful work.
- To educate Montessori practitioners so they can **advocate for all children**, to promote the ability to create multidisciplinary teams, support teachers and parents, and to be prepared to convey through lectures and writings their understanding of inclusion of all children.

Course Schedule & Content

First Summer

- Overview of **characteristics & challenges of exceptionalities**
- Explore fundamental course themes:
 - Celebrate the uniqueness** of each child
 - Character and personality** are the most important
 - Avoid labels, nature makes differences**
 - Observation, protocols and interventions**
 - Who knows what skills are needed for our **future society?**
- **Finding ways to reconcile public school approaches** and AMI standards
- **Topics Covered**
 - Itard, Seguin, Montessori and Special Education
 - Exceptionalities/Learning disorders
 - Behavioral and Emotional aspects
 - ADD/ADHD
 - Autism Spectrum (Asperger's)
 - Language and Speech disorders
 - Auditory & Visual impairments

Second Summer

- Presentation and discussion of **case studies**
- How to write a **Montessori IEP**
- **Designing approaches** from the “outside world of experts” with our Montessori system
- New research in **neurosciences (Neurodiversity)**
- **Family dynamics** and education
- **Media** and its effects on Executive Functions
- **Topics Covered**
 - Gifted Children
 - Children at risk: poor communities, orphanages, foster homes
 - The technological revolution and its consequences
 - Physical and health disabilities
 - Diagnosis & assessments

Academic Requirements

- Assigned reading
- Brief weekly essays
- 8-10 page case study paper
- 30 observation hours (related to case study paper)
- Personal reference album
- Final written reflection questions
- At least 90% attendance

Time Commitment Outside of Class

- 2-3 hours of homework (reading & writing essays) per night when classes are in session
- 30 observation hours
 - Complete during the interim year
 - School, home, and other settings are acceptable
- Case study paper
 - Complete during the interim year
- Personal reference album
 - Ongoing project throughout the year, for your personal use, that can be as general or detailed as you wish

Clinical psychologist & internationally renowned speaker
Uses her experience as a Holocaust survivor to help people transcend limitations
Talks about stress and resilience

Professional Outcomes

- What you will learn in this program
- How you can use this training to advance your career

In this course, you will learn how to...

- Coordinate an **interdisciplinary team** for each child (teacher + parents + specialist)
- Create a **“Montessori IEP”** (Individualized Education Program)
- Craft a strong **referral to a specialist**
- Write a **case study** for a Montessori audience
- Develop an Inclusive Education observation **protocol for your school**

- Build a **resource library** for your school
- Deliver **staff workshops**

And you'll also get...

- Specialized, in-depth **observation skills** related to red flags
- Ideas for “**best practices**” within the Montessori environment
- Membership to the **MISD Inclusive Education Think Tank**, an international community of colleagues who support each other professionally

Benefits to Schools

- In-house consultant
- Reduce drop-out rate
- Resources to serve *every child*
