

Housing Overview: Summer 2018

Housing is an important part of your quality of life as a student at MISD and we encourage you to give it thought as early as possible so you can find the best fit for your situation.

We have gathered some housing options for you to consider as you plan your summer with us, and you will surely think of other creative options on your own. As in past summers, we will be offering student housing at the **University of San Diego** which is a private university about 10 miles away from MISD. That is the one housing option that is mediated through MISD (in other words, you pay MISD and we pay the university). If you do not choose that option, you will be arranging housing on your own directly with a third party.

Vacation home rental websites are another good resource— Airbnb, VRBO, Craigslist, etc. We have also done some preliminary research on **hotels in the area** and are happy to share that information below. There is a Marriott Residence Inn just across the street from MISD, and also within walking distance of two shopping centers, which MISD students have found convenient in the past. Please note that there are many other places to choose from and an internet search will yield a wide variety of options. Ultimately, you will need to contact businesses directly and get exact information about pricing, amenities, and room options related to your particular situation.
