

Elementary "Going Out" Permission Slip

"Going out" into the community to do research, to gain knowledge and to sample selected aspects of life in San Diego is a privilege available to the children of our elementary program. These "going out" experiences are purposeful extensions of the classroom work. The "going out" experience is an important part of the elementary program. The children gain awareness and independence by being carefully and thoughtfully introduced to an even widening "classroom". "Going out" can include small-group excursions or whole-class field trips. During these outings the students will be in the supervision of an MISD staff member.

Your signature on the line below will give us permission to include your child in the "going out" experience.

I give my permission for my child _____
to take part in the "Going Out Experience". I realize that they will
be leaving the school grounds, either on foot, by car, or on public
transportation.

Signed: _____ Date: _____
