

Ivory Montessori School is a new establishment that opened its door in September 2016 in *Abidjan, Ivory Coast*. It was a great opportunity to bring a new way of teaching and thinking in a developing country of Africa.

Ivory Coast is a beautiful country full of life and opportunities. Not Only we have beautiful tropical weather, we also have the beach 20 min away from the city.

Ivory Montessori School is expanding in September 2017 with a brand new building, and brand new classes. We will be opening two toddler classrooms as well as one primary classroom.

It's an opportunity for a directress to create and organise a new classroom.

We are seeking **one toddler AMI trained** directress to run one of the classrooms either French or English speaking or **a Primary teacher** interested in teaching toddlers with an opportunity to open a second Primary classroom.

Children in the school come from all around the world and like all the children they are always eager to learn!

Please send us your Resume and motivation letter if interested to:

info@ivorymontessorischool.com

All of the interview will be via Skype.

Have a great day!

Mrs Anam Hassam
School Owner
