About Discovery

Discovery is a collaboration between Xplor Education and a groundbreaking Southern California aerospace company to form an innovative Montessori community for children of the partner-company's employees. While their parents develop the breakthroughs that will one day make life multiplanetary, their children will grow into the next generation of innovators in a way that only authentic Montessori can provide. Enrollment at Discovery is exclusively for children of the partner-company's employees and is not open to the general public.

Discovery is now in development and scheduled to open this fall at our partner's headquarters – a thrilling, energetic place that embraces the spirit of Montessori. Discovery will become a vibrant Montessori community for children aged 10 weeks to 6 years. Spacious interiors with high ceilings and natural finishes evoke the warm, home-like feel that is the hallmark of Montessori. Outside, a lovely oasis will provide ample opportunities for exploration, play and gross motor development.
